SUMMARY

Dedicated application developer with expertise in Flutter, Java, and cross-platform mobile applications. Proven experience in delivering high-quality, user-friendly solutions. Skilled in web UI development using HTML and CSS. Strong foundation in software development principles and a keen interest in emerging technologies.

EXPERIENCE

Android App Developer

Freelance

July 2023 – Present

- Delivered 2 bespoke Android applications, meeting client's specific requirements and ensuring high user satisfaction.
- Emphasized optimization and seamless user experience in the development process.

Flutter Developer Intern

ZeroMonk Pvt Ltd

September 2022 – May 2023

- Collaborated as a team member at Zeromonk Pvt Ltd, contributing to the Flutter development of a social media application.
- Focused on optimizing app performance to ensure a seamless user experience.
- Implemented additional features to enhance the functionality and appeal of the social media application.

PROJECTS

QuizPluse

github.com/Rohit10gt/QuizPlus

- **Dynamic Quiz App:** Developed a Flutter and Firebase-powered quiz app with engaging image-based questions.
- **Firestore Integration:** Ensured real-time updates for a seamless user experience during quiz interactions.
- **Admin Panel:** Implemented a user-friendly admin page for effortless addition of questions with multiple-choice options.
- **Scalable Backend:** Utilized Firestore's scalability for handling increased users and growing question sets.

Weathery

github.com/Rohit10gt/Weathery

- **Weather App:** Developed a dynamic and user-friendly weather application using Flutter.
- **Real-time Information:** Provided real-time weather updates to keep users informed.
- **Location-based Forecasts:** API-based location forecasting, delivering personalized weather information for enhanced accuracy.
- **Intuitive UI:** Designed an intuitive user interface for a seamless and enjoyable user experience.

ChatBoat

github.com/Rohit10gt/ChatBoat

- **Chat App:** Developed a versatile app with Flutter for seamless individual and group interactions, featuring real-time messaging.
- **Group Dynamics:** Enabled users to create and join groups, fostering collaborative conversations in a dynamic environment.
- **User-Centric Features:** Integrated personalized user profiles and designed an intuitive interface to enhance overall chatting experience.
- **Firestore Integration:** Utilized Firestore for the backend and database, ensuring efficient real-time communication and data storage.

EDUCATION

B.Tech in CSE with a certification in Artificial Intelligence and Machine Learning (AIML).

Quantum University · Roorkee, Uttarakhand · 2024

SKILLS

Flutter, Firebase, Databases[MySQL, Hive for Flutter], Programming Language[Java / Dart / Python], HTML / CSS / JS

CERTIFICATIONS

Intel Edge AI Certification

Intel · 2022

- This Certification highlights proficiency in deploying cutting-edge AI solutions with Intel technologies, emphasizing optimization and performance excellence.
