Projects

Portfolio Website(HTML-CSS & JS)

A visually appealing and interactive portfolio website showcasing my skills in HTML, CSS, and JavaScript.

Weather App (Flutter)

A dynamic and user-friendly weather app developed using Flutter, providing real-time weather information and features such as location-based forecasts and intuitive UI.

Chatting App (Flutter)

A versatile Flutter application facilitating seamless chatting and group interactions, incorporating features like real-time messaging, group creation, user profiles, and an intuitive user interface.

ECommerce UI (Flutter)

A visually stunning and user-friendly E-commerce app UI built with Flutter, featuring intuitive navigation, product catalog, shopping cart functionality, and seamless checkout experience.
